WHY SHOULD YOU ATTEND?

- This workshop is the premier international meeting on HIV and aging.
- This workshop is intended as a compact, focused meeting to encourage **crossdisciplinary scientific dialogue** and **in-depth discussions** among all attendees, including presenters.
- This meeting is a **stepping stone for young medical professionals** to present their research in an informal and encouraging setting. We encourage their participation by offering them a complimentary registration (for more information see meeting website).

ABSTRACT SUBMISSION

We invite you to submit an abstract on one of the following topics:

- Effect of aging on organ systems (renal, gut, cardiovascular, hepatic, endocrine)
- Geriatric syndromes
- Immunology
- Interventions
- Malignancy
- Models of care
- Neuro/psychology
- Pharmacology
- Quality of life/ well-being
- HIV/aging in the international setting

ABSTRACT SUBMISSION DEADLINE: 12 JULY 2019

ORGANIZED BY

DAY 1 - THURSDAY, OCTOBER 10TH

8:30	Mentoring breakfast and table discussions Invited speaker: Kevin High, MD, MS ; Wake Forest Baptist Health, Winston-Salem, NC, USA
10:00	Opening of the workshop
Session 1	
10:15	10 Years of aging research: Frailty and aging Linda Fried, MD, MPH ; Columbia University, New York, NY, USA
10:45	10 Years of aging research: HIV and aging Keri Althoff, MPH, PhD ; Johns Hopkins University, Bloomberg School of Public Health, Baltimore, MD, USA
11:15	Discussion
11:30	Abstract-driven presentations
12:15	Lunch
Session 2	
1:15	The pros and cons of altered coagulation as an important pathophysiological mechanism in HIV Jason Baker, MD ; University of Minnesota, Minneapolis, MN, USA
1:45	Abstract - driven presentations
2:45	Discussion
3:00	Coffee Break
Session 3	
3:30	HIV and aging in the international setting: from inflammation, viral clades, and coinfections to the clinical implications and epi Jean B. Nachenga, MD, PhD, MPH ; University of Pittsburgh, Pittsburgh, PA, USA
4:00	Abstract - driven presentations (3 slots)
4:45	Discussion
5:00	Welcome drinks and poster viewing session 1

DAY 2 - FRIDAY, OCTOBER 11TH

Session 4	
8:00	Use of cannabis: basic scientist's perspective Linda Chang, MD ; University of Hawaii, HI, USA
8:30	Use of cannabis: clinician's perspective Thomas Marcotte, PhD ; University of California San Diego, CA, USA
9:00	Discussion
9:30	Coffee break and poster viewing session 2
Session 5	
10:30	Loneliness/social isolation Maile Karris, MD ; University of California San Diego, CA, USA
11:00	Abstract - driven presentations (4 slots)
12:30	Lunch
Session 6	
1:30	Implications of cure research for the older population Steven Deeks, MD , University of California San Francisco, CA, USA
2:00	How to be an advocate? Stephen Karpiak, PhD ; ACRIA Center of HIV & Aging at GMHC, USA
2:30	Discussion
2:45	Closing of the workshop

FREE REGISTRATION
for young investigators with accepted abstracts
